

We are looking to strengthen our team:

Pedagogical specialists

- 📌 crèche (U3)
- 📌 kindergarten (O3)

Glückskinder GmbH is a private provider of daycare centers with facilities in the Main-Taunus and Hochtaunus districts in Hofheim, Lorsbach, Sulzbach, Eppstein, Vockenhausen and Schmitten. We look after children aged 6 months to 6 years.

The educational concept of the Glückskinder is based on Montessori's motto "Help me to do it myself" and the principles of Emmi Pikler. The Glückskinder work according to the immersion method, which allows the children to learn a second language (English) through play.

Our crèches and kindergartens are a holistic place of experience, a space in which there is room for every child regardless of age, gender, religion, nationality and social status.

In addition to the children, our employees take center stage: we cultivate a culture of open communication and respectful interaction. We are happy to support each individual in their personal and professional development.

What you can expect from us:

Bilingual orientation

Due to your very good knowledge of English, you are the specialist in the group who only speaks English with the children.

Looking after the children

It is essential for us to actively support and encourage the children in English while adhering to the educational concepts. We also offer sufficient time for observation and documentation of the educational work.

Lifelong learning

We support your development through regular training courses that strengthen your skills in strategic and operational management. Experienced trainers teach specialist pedagogical topics in 8 annual concept days.

Collaborative work

You are an important part of our diverse, international team, which works well together and looks forward to your ideas.

Digitalization

Many everyday processes are digitized via our **Glückskinder app** : there is more time for the children and things that would otherwise fall by the wayside.

Good earning potential and additional benefits

We value your work highly and therefore reward you with a performance-related salary - Pension scheme, travel allowance, job bike and other benefits are on top.

Time to take a deep breath

Because free time and regeneration are important to you and we only have a few closing times, you are flexible in your personal vacation planning.

You bring with you:

- ✓ Completed training as an educator or a pedagogical degree
- ✓ Excellent English skills
- ✓ Fun and a genuine interest in working with (young) children
- ✓ High level of commitment and ability to work under pressure
- ✓ The desire to work in an intercultural team
- ✓ Creativity, a wealth of ideas, enthusiasm, flexibility
